PROFESSIONAL SUMMARY

Motivated MCA student with practical experience in Python, Flask, Machine Learning, Natural Language Processing (NLP), Computer Vision, and Generative AI. Proficient in building AI-powered web applications, developing REST APIs, and working with MySQL, Git, and modern development tools. Seeking an entry-level Software Engineer or AI/ML Developer role to apply technical skills in solving real-world challenges.

EDUCATION

Himachal Pradesh Technical University (HPTU)

2024 – 2026

Master of Computer Applications (MCA) | **CGPA: 8.3**

Hamirpur, Himachal Pradesh

Himachal Pradesh University (HPU)

2021 – 2024

Bachelor of Computer Applications (BCA) | **CGPA: 7.4**

Hamirpur, Himachal Pradesh

EXPERIENCE

Excellence Technology

January 2026 – June 2026

Python AI Intern

Hamirpur, Himachal Pradesh

- Developed Python web applications using **Flask** and built **RESTful APIs**.
- Built AI-powered applications using **Machine Learning**, **Deep Learning**, and **LLMs**.
- Performed **web scraping**, data preprocessing, and analysis using BeautifulSoup, Requests, and Pandas.
- Integrated **MySQL** databases with Flask applications and used Git for version control.
- Developed AI-based projects, including a **Voice-Based Campus Helpdesk System** and a **Movie Recommendation System**.

PROJECTS

Voice-Based Campus Helpdesk System | Python, Flask, HTML, CSS, JavaScript, MySQL

- * Developed an AI-powered campus helpdesk system using **Python**, **Flask**, **NLP**, **Speech Recognition**, and **Text-to-Speech** for real-time voice and text-based query assistance.
- * Implemented secure authentication, FAQ management, query history, feedback collection, and an admin dashboard using **Flask** and **MySQL**.
- * Designed a responsive interface with **HTML**, **CSS**, **Bootstrap**, and **JavaScript**, delivering accurate responses through NLP-based query matching.

Movie Recommendation System | Python, Pandas, Streamlit, Scikit-learn

- * Developed a content-based movie recommendation system using **Python**, **Scikit-learn**, and **cosine similarity** to provide personalized movie recommendations.
- * Processed and analyzed movie datasets using **Pandas**, implementing feature extraction and similarity-based recommendation techniques.
- * Built an interactive web application with **Streamlit** and integrated the **TMDB API** to display movie posters, ratings, and detailed information.

SKILLS

Programming Languages : Python, SQL, HTML, CSS, JavaScript, Machine Learning, Deep Learning, Natural, NLP

Frameworks & Libraries : Flask, FastAPI, LangChain, PyTorch, Scikit-learn, Pandas, NumPy, Bootstrap

Databases : MySQL, SQLite

Tools & Technologies : Git, GitHub, REST APIs, Jupyter Notebook, VS Code
